Skipper Discovers Swingit Lost City

It was a bright sunny day. Skipper the Swingit Squirrel was feeling his usual self: a lil' hyper and nutty. He decided to run outside to play on his playset. Imagine his surprise when he arrived to find an envelope that was addressed to Skipper. He excitedly tore it open and found a note that said, "To the fun and always nutty skipper: We have chosen you to help us on the mission of Swingit Lost City. It will be a fun and mysterious adventure and your first clue awaits! PS: Invite some friends to join in the fun!" Skipper was filled with excitement as he quickly grabbed the phone and dialed Tommy and Timmy's number. As soon as they arrived they read the first clue aloud, "Run quickly but carefully to the rock wall on your playset." They immediately ran there and Tommy and Timmy oohed and ahed as they climbed the awesome rock wall. There, they found Stingy the squirrel and they quickly had to come up with a strategy to get rid of the pesky pest. Getting him away was hard work but at last they found the second clue. "Good job defeating Stingy! He is one hard squirrel. Next, get down the playset but you must be careful which way to go". The threesome were very nervous, but after much deliberation they chose the secret tunnel. As always, they faced yet another obstacle; the ANT ARMY. This time they had to think quickly before the ants got to them. They finally captured the ants and let them free where they belonged. At last they found the final clue: "Good job getting this far. Now you must run to the enchanted forest". They rushed feverishly toward the forest and when they arrived they were surprised to see a wise old squirrel. He was

expecting them. He gave them a quick quiz then unlocked a magical door! Inside was even more magical! It was a huge bustling city just for squirrels! They were flabbergasted and overjoyed. They had lots more to discover but for now they were satisfied for the day, and couldn't wait to discover the World of Squirreltopia!

The end!
