

SWINGIT PLAYSETS CONTEST

Builders were making his play set bigger! He was amazed “now I will never be bored again” said skipper. He was so excited he will play all day long on it “I will never go off it! I will not sleep and I will not eat.” The builders had a red hard hat with blue stripes, yellow vests and brown heavy boots. They were building a big new swirly slide and a small wall climbing with a rope. He was so excited! Oh this will be so much fun. He couldn’t wait to play on it. “Make sure that it’s big” said skipper dancing around them. “Remember to add a steering wheel. Put a table and chairs too okay?”

Suddenly he felt very hot “phew! I am going to get some lemonade it’s boiling out here. Would you like some too?” so off he went to get some lemonade for all of them. Skipper came back with the lemonade and they all gulped it down joyfully.

He was amazed to find another squirrel in the corner of the garden sobbing quietly. “What happened?” asked skipper. “My name is Watermelon and I have no friends.” So skipper invited him to play with him. On the play set the builders were finished. It was humongous! On ran the two little squirrels scampering around. They ran to the bench that the builders have made out of the spare wood. They were out of breath and sweaty.

Just then Skippers brother came out to play when he looked at watermelon. “Who are you?” “Watermelon my new friend,” said Skipper. In the distance they heard Watermelons mother was calling his name. He waved goodbye and ran off. With a sigh they both sat down to watch the beautiful sunset.
