

Swingit Story

By Donny Pike

A new swing set! He couldn't believe his eyes. But some friends were walking past his house and they saw this amazing swing set. They knew Skipper would not let them use it, but they still asked. They said "Please can we use your new swing set?" Skipper said "Let me think about it". He knew it would be such a big mitzvah to share his swingset with his friends and said it was ok to use. After a few minutes, Skipper wanted to use it also. Skipper asked his friends, "Please can you push me high? And his friends said "Yes, I will push you". When his friends pushed him, he went too high and fell and was bleeding. So they called Hatzalah. When they arrived, he got in the van, he went to the hospital and he came back and he was better and all of them had fun! They left and said "bye bye" to each other.
