

.....On top of the slide there was a treasure chest filled with acorns and, leftover food from a house near by. He took the treasure chest inside. Went back outside, and saw another one on the monkey bars with 50 acorns. And again went inside with the chest. Then went back outside to play a little. After, he told the tale to his friend, who owns Swingit Playset. "Did you put the chests there"? Asked Skipper. "No". Said his friend. "I guess someone else did". Said Skipper. He is so happy to have at least enough food to last the whole Summer and Winter !!!!!!!!!!!!!!!
