

...a piece of paper it said on it "5 seconds after you read this, anything you touch will turn into your favourite thing" he didn't know what to do he had 5 seconds to react and that wasn't very long. He thought what's his favourite thing he decided just to wait and see, after 5 seconds he went to a tree and touched it and guess what it turned into a tree made out of nuts, it's nuts isn't it. After that when he got hungry he would just touch a tree or a football and he would have his favourite treat. He decided to host a party for all his squirrel friends and his family and all you had to bring was a football for Skipper to turn into nuts. That day was one of the best days of his life. When the party was over nobody could shake his hand to say thank you because if they do they will turn into a nut, and that's when things got bad. Skipper wanted to go on his swingit toy set but then he thought it will turn into some nuts but it was too late he was already on it. Then he decided to pinch himself just to make sure it wasn't a dream and guess what he turned into a nut!!!!!!!
