

Skippers swing set

...when he got there he saw his friends waiting for him so they could play together. They were playing so happily and then they took a break to eat something meanwhile the bullies in the town didn't like their swing set they took some hammers and started reaping apourt the swing set. Skipper and his friends came back outside to see these bullies destroying their swing set. Skipper and his friends were so upset but skipper and and his friends had an idea they were going to build a new swing set. So they got started first they made a blue print then they got all the supplies they needed like wood and screws and hammers and all that type of stuff. They started building by the time they were done it was time to go home so they all said goodbye and went home. In the morning they went back to their swing set. The bullies were there and they looked confused. Do you need something said skipper ?No, said the bullies we are here to say sorry for destroying your swing set can you forgive us? umm said skipper what you did was wrong but we can give you a second chance. Thank you so much. You are welcome .hey would you like to play with us ? sure, and they all became friends the end.
